

LAVENDER CAMPERS

Meadow

Your quiet escape into nature.

ARCHITECT DESIGNED | OFF-GRID | ALL-SEASON

A place to slow down

Meadow is a **boutique retreat** on wheels where architecture and nature come together through refined design and solid engineering, creating a calm, functional and beautiful space.

Inspired by a **summer meadow** in full bloom, where earthy tones, soft light and nature's beauty blend together, that atmosphere flows throughout the entire design - from soft curves to warm materials and a calm, balanced interior that feels more like a small boutique hotel than a traditional campervan.

Comfort and ease sit at the heart of Meadow. A **large bed** with a premium mattress ensure a restful sleep, while the **functional kitchen** makes it easy to cook anywhere.

Underneath lies an **off-grid foundation**. Meadow is built for independence with a full Victron system and integrated control panel, offering multiple ways of charging and several days of off-grid capability. It is fully insulated and ready for **all seasons**, equipped with a heater, fan and boiler for hot water for year-round comfort. A large water tank and filtration system support longer stays in nature, while fly screens and an awning provide shade and protection from insects.

The **carefully selected base vehicle** is a young van, with low mileage and 165 horsepower, chosen for comfort, reliability and smooth driving.

KEY HIGHLIGHTS

- Architect designed in The Netherlands
- Fully insulated all-season camper
- Ready for off-grid adventures
- Natural materials and bespoke details

THE FOUNDATION

Vehicle:	Citroen Jumper L2H2
Year:	11.2021
Mileage:	42.000 km
Engine:	2.2 BlueHDi 165hp
Transmission:	Manual
Fuel:	Diesel
Seats:	2
Weight:	2880 kg
Max. weight:	3500 kg

DRIVING FEATURES

Cruise control
Air conditioning
Reverse camera
Rear parking sensors
Rear cross-traffic alert

Alpine Meadow natural wallpaper

High quality paint, varnish and oil finishes

Water & stain repellent upholstery

ABOUT LAVENDER CAMPERS

At Lavender Campers, we design custom campervan conversions for those who believe in the magic of slow travel and the serene beauty of nature.

What started as our own way of travelling and escaping the pace of everyday life grew into a desire to create something meaningful for others as well.

As architects, we wanted to design more than just campervans, but spaces that make slow travel feel natural, comfortable and invite you explore and spend time outdoors.

Every Lavender Camper is a reflection of this vision: a harmonious blend of thoughtful design, natural materials and functionality.

Born from passion, built with love and sawdust.

Meadow is ready to explore. Are you?

PRICE 75.900 eur
incl. BTW/ BPM/ APK and warranty
